Vision  To provide the means for the community to care for the land today, in a way that will leave it better for tomorrow.

Mission  To provide leadership to access, initiate and integrate the resources to enable community groups to manage the land, water and remnant vegetation in a sustainable manner in partnership with government.

Values  People are at the heart of all community matters and, as such, they are critical to our success. Respecting people, improving the quality of living, appreciating and supporting cultural differences and being good stewards of the land, air, water, flora and fauna.

This project is brought to you by Landcare SJ through funding from the WA Government's State NRM Program.
